

WORKSHOP ON PRESSABLE CERAMIC (CELTRA PRESS SYSTEM)

With encouragement and motivation of Dr. Nikhil Srivastava, Hon'ble Principal, SDC&H, The Department of Prosthodontics and crown & Bridge organized a workshop on Celtra Press System i.e; a lithium Silicate reinforced with Zirconia a pressable ceramic, in collaboration with Dentsply Sirona on 8th Nov 2017. The course director for the day was Dr. Lakshmikant Tiwari (BDS), a skilled dental technician himself. The occasion was also graced by the presence of Dr. Vinita Nikhil (Prof. & Head, Dept. of Conservative), Dr. S.P. Singh (Prof. & Head, Dept. of Prosthodontics), All Faculty Member (Dept. of Prosthodontics), PG students, Interns and Students of Dental Mechanics. A detailed procedure of fabricating an all ceramic prosthesis was explained & demonstrated by Dr. Lakshmikant Tiwari. All the steps of laboratory procedure from die cutting, wax pattern fabrication, investing, ceramic pressing and finishing & polishing of the prosthesis were dealt with in detail. Each & every aspect of procedure & doubts were discussed. It was an excellent workshop to enhance our skills, worth attending indeed.
