

# XVI National PG Convention of INDIAN ASSOCIATION OF ORAL & MAXILLOFACIAL PATHOLOGISTS

**"HEMATOPATHOLOGY - AN UNCHARTERED TERRAIN"**

**24<sup>th</sup>, & 25<sup>th</sup> JUNE 2017**

Pre-Convention  
Courses  
on  
23<sup>rd</sup> June, 2017

Department of Oral & Maxillofacial Pathology  
**Subharti Dental College, Swami Vivekanand Subharti University,**  
NH-58, Delhi-Meerut-Haridwar Bypass Road, Meerut (U.P.)-250005

**The Host City:** Meerut is the largest city in National Capital Region after Delhi and lies between the plains of the Ganges and those of the Yamuna. Historically, Meerut was the part of Hastinapur Empire of Kauravas that ruled the Vedic India and was the protagonists of Hindu Epic of Mahabharata. The city is one of the largest producers of sports goods and is aptly called the Sports Capital of India. The city also holds the distinction of being the largest producer of musical instruments in India. Meerut is famously associated with the Indian Rebellion of 1857 against the British East India Company. The famous slogan "Dilli Chalo" was first raised here.

Meerut is well-connected to major cities by Air, Rail & Road. The nearest airport is the Indira Gandhi International Airport and Meerut has three railway stations which connect it to various parts of India. Famous places in and around Meerut include Jain temples of Hastinapur, Augarnath Temple, Martyr's memorial, Shahi Eid Gaah, Suraj Kund etc. Other places of tourist interest around Meerut are Haridwar, Rishikesh, Dehradun, Nainital, etc.

## The Venue

- \*3000 Seater, State of Art; Fully Air- Conditioned; Architectural Marvel
- \*Largest of its kind in North India
- \*Located in the premises of the Host University

## Greetings from the Sports Capital of India.

The Four Humors of the body namely blood, yellow bile, black bile, and phlegm work together to ensure the optimum nutrition, growth and metabolism of the organism. Greek physician Hippocrates (460-370 BC) developed a medical theory based on these humors. He believed that health is a harmonious balance and interworking of these "HUMORS". When the humors are harmonious, balanced and working well together, that is a condition called eucrasia, or "good mixture". When the humors are unbalanced, aggravated, or out of sorts, that is a condition called dyscrasia, or "bad mixture". Blood is the very essence of vitality and health, nutrition and growth. Blood carries the vital force and innate heat, which power cellular metabolism. The essence of blood is exchange and contact, as it is the basic nutritional and metabolic currency of the organism. Blood has an attractive virtue, or force, since all cells, organs and tissues have an absolute need for it, and are therefore attracted to it.

Sadly enough, we as Oral Pathologists have neglected the area of Haematology and have been treating the same as a step child. Keeping in view that Blood leads to diagnosis of many a diseases, through biochemical tests, molecular profiling, and cellular evaluation, still no one has ventured beyond their comfort zone in this field of hematopathology. This convention is planned around the theme of "Hematopathology- An Uncharted Terrain". We welcome you with open arms and folded hands to be a part of this XVI National Post Graduate convention of Indian Association of Oral & Maxillofacial Pathologists at Subharti Dental College, Meerut which is going to be held on 24<sup>th</sup> & 25<sup>th</sup> June 2017 and give us a chance to showcase the hospitality of Meerut in general and Subharti in particular.

Organizing Committee

XVI National PG Convention

**Dr. Nikhil Srivastava**  
Patron; Principal  
& Dean, SDC

**Dr. Vijay Wadhwan**  
Organizing Chairperson

**Dr. Vandana Reddy**  
Organizing Secretary

**Dr. Preeti Sharma**  
Scientific Convenor

**Dr. Suhasini G.P**  
Registration Convenor

**Awaiting Your Arrival : Dr. Pooja Aggarwal, Dr. Chitrapriya, Dr. Arvind, Dr. Ekta, Dr. Vaseem, Dr. Ankika, Dr. Ashish**

**Phone: 0121-2439043/52 (Extn: 2038); M.: +91-9639008844, E-mail: [sdc\\_oralpathology@rediffmail.com](mailto:sdc_oralpathology@rediffmail.com)**

**The Host University:** Swami Vivekanand Subharti University was established under the aegis of Subharti K.K.B. Charitable trust, Meerut, and has acquired a commendable record of service in the field of education, health care and social welfare. The University has several constituent colleges which provide higher education in almost all the disciplines like Medical, Dental, Nursing, Physiotherapy, Paramedical, Pharmacy, Naturopathy & Yoga Sciences, Engineering, Management, Law, Journalism, etc. thus engaged in creating highly qualified, academically and technically proficient professionals. The University is also running courses through

Distance Education, approved by UGC, AICTE and DEC.

**The Host College:** Subharti Dental College (SDC) is a pioneer in dental education and patient care since 1996. It is a constituent college of Subharti University, Meerut and is recognized by Dental Council of India. We are ranked amongst the top 20 Dental Colleges of India. At SDC we are committed to being a national leader in advancing oral health through the integration of patient care, research, education and community services. It is well equipped with state-of-the-art facilities for diagnosis

and treatment of dental and orofacial diseases. Eight post graduate departments with an annual intake of 34 students encompass numerous laboratories and dedicated research areas. Subharti Dental College has the proud distinction of being the first dental college in Uttar Pradesh to start the post graduation in the subject of Oral & Maxillofacial Pathology.

**The Host Department:** The Department of Oral Pathology and Microbiology is well equipped with state of the art modern equipments and with separate areas marked for the undergraduates and postgraduates teaching and learning. The department has a museum displaying various specimens, dedicated research room and histopathology laboratory. Our research lab has pentahead microscope, research microscope with fluorescent attachment, polarizing attachment, phase contrast and dark field attachments with a good photomicrography set up and an image analyzer software for morphometric studies. The department keeps itself abreast with the changing times and to enhance the timely diagnosis and appropriate management of the patient. We have fully functional Immunohistochemical laboratory, Microbiological laboratory and separate special stain lab for post graduate students. The department also serves as a resource for research projects undertaken by other postgraduates and faculty of the College.
