

ISP LISTERINE LECTURE-14th August, 2019

Department of Periodontology and Indian Society of Periodontology in association with Listerine continues the knowledge exchange scientific lecture series in Subharti Dental College and Hospital, Meerut. The lecture was conducted on 14th August 2019.

The dignitaries of the programme were **Dr. Nikhil Srivastava**, Principal and Dean, Subharti Dental College & Hospital and **Dr. Mayur Kaushik**, Head of the Department, Department of Periodontology.

The programme began with a brief address to the participants by Dr. Mayur Kaushik. This was followed by the scientific lecture on the topic “**Current Opinion in Biofilm Management: Redefining Prevention, Redesigning Lifestyle**” by **Dr. Chander Shekhar Joshi**, Reader, Department of Periodontology.

The lecture was attended by 120 participants including Interns, Postgraduates, and faculty members. The handbags containing a diary, and a certificate and Listerine mouthwashes were distributed to all the participants before the lecture.

This was followed by concluding remarks by our respected Principal, Dr. Nikhil Srivastava. This marked the end of the programme.

Soon after the lecture, refreshments was distributed to all those who attended the programme.
