Public Awareness Lecture Series at Meerut Institute of Engineering & Technology

Date: 29.01.2024

Place of Event –Auditorium, Meerut Institute of Engineering and Technology

Total No. of Beneficiaries - 44

Objective of the Activity:Public awareness lecture series (PALS) to enlighten youth regarding the ill-effects of tobacco and how it effects their mental and physical health.

Description: Continuing our campaign of educating youth against “Tobacco and its ill effect on oral health”. Dept. of Oral Medicine and Radiology in association with department of Oral Pathology, Subharti Dental College conducted a successful Oral and Dental Health camp under (PALS) at Meerut Institute of Engineering And Technology (MIET) under the able guidance and support of our Respected Principal Dr Nikhil Srivastava.

Several young students and staff were screened and diagnosed with different dental related problems and tobacco associated lesions which they were unaware of. They all were counselled about the ill effects of tobacco.

Outcome of the Activity: The students showed full enthusiasm and participated whole heartedly. The lecture and screening was very fruitful as students came to know about benefits of practicing good oral hygiene and eliminating deleterious habits from their life.
