**Participants-135 Delegates**

National Tobacco Control Programme (NTCP) Tobacco Sensitization workshop was organized under “Save the Youth” campaign, an initiative of I Can Win foundation in Subharti Dental College & Hospital under the supervision of our Principal **Dr. Nikhil Srivastava** and the department of Oral Medicine & Radiology on 9<sup>th</sup> March 2019 at 8:00am. All the BDS Final Year students and interns attended the workshop.

The founder of I Can Win Foundation **Mr. Rabindran Mishra**, corporate lawyer initiated the talk where he emphasized on ill effects of tobacco and its forms which are available in the market. He also emphasized on the financial burden on government due to its health hazards. The talk was further continued by **Dr. Pawan Gupta**, a renowned Oncosurgeon, Director, Max Institute of Cancer Care, Vaishali, Ghaziabad and also the President of ‘I Can Win Foundation’. He enlightened us with the facts how this tobacco is curbing our society and how our young minds have been addicted to it. The reason could be stress, peer pressure etc. He also guided us how one at individual and institutional level can help patients quit tobacco. The programme came to an end with a pledge taken by all present there not to indulge and help people to quit and fight back this global menace.
