

REPORT OF VALUE ADDED COURSE

A Value Added Program on “Know Your Dental Chair” was conducted by the Department of Conservative Dentistry and Endodontics, with the participation of 50 participants. It was a 4 day programme and the lecture was conducted by Mr Amardeep Rawal.

The lecture provided valuable insights into the various components and functions of the dental chair, its operating mechanisms, routine care, preventive maintenance, identification of common technical issues, and basic troubleshooting to ensure efficient and safe clinical functioning. The session emphasized the importance of regular maintenance and proper handling of dental chair equipment to enhance its longevity and performance.

The program concluded with a hands-on session and workshop by Mr. Amardeep Rawal and Mr Hariom Kaushik on air rotor maintenance, where participants received practical demonstrations and gained experience in basic maintenance and care procedures.
