

## DEPARTMENT OF ORAL MEDICINE & RADIOLOGY, SUBHARTI DENTAL COLLEGE

2022

**Skill enhancement course on “Botulinum Toxin: Elixir for Facial Aesthetics & Orofacial Pain”**

**Date: 30-12-2022**

**Organized by: Department of Oral Medicine and Radiology, Subharti Dental College, Swami Vivekanand Subharti University, Meerut**

**Venue: LT -4, Subharti Dental College, Swami Vivekanand Subharti University, Meerut**

**Participants - 113 Delegates**

**Objective of the Activity:** To enhance the skill of the dentist in their clinical practice.

**Description:** Department of Oral Medicine & Radiology conducted a Skill Enhancement Course on “Botulinum toxin: Elixir for Facial Aesthetics and Orofacial Pain” for Interns, PGs and Faculties under the able guidance of our dynamic Principal Dr. Nikhil Srivastava Sir. The course co-ordinator was Dr. Ali Atif (Oral and Maxillofacial Surgeon). He spoke about the application of Botulinum toxin in various orofacial pain condition and facial aesthetics. Hands-on was also conducted for the same. It was an interactive session in which students and faculty participated enthusiastically.

**Outcome of the Activity:** The students showed full enthusiasm and participated whole heartedly. The lecture and hands-on was very fruitful as students came to know about the practical approach, Do’s and Don’ts of Botulinum toxin and its applications in dentistry. They experienced the above by practicing it on live patients. The students did find it a very intellectual session. They learned a lot from the course and suggested that similar type of courses should be conducted in future. Their overall experience was good.
