

International Webinar on “Low dose light treatments in managing cancer treatment associated mucositis: Mechanisms and new clinical guidelines” organized on 03 October 2020

The department of Oral Pathology and Microbiology organized an International webinar on “Low dose light treatments in managing cancer treatment associated mucositis: Mechanisms and new clinical guidelines” on 03 October 2020, for faculty, post graduates and undergraduates. The guest speaker was Dr Praveen Arany, (Guest Speaker) DDS, PhD, Assistant Professor, University of Buffalo, New York, USA. The session was moderated by Dr Alka D Kale (Moderator), Principal, KLE’s VK Institute of Dental Sciences, Belgaum, Karnataka. The webinar focused on photo dynamic therapy in managing cancer patients. The webinar was fruitful for more than three hundred sixty participants.
